

Hello, Future!

Japan Association of New Economy

July 2019

About JANE

Innovation

Entrepreneurship

Globalization

Japan needs to develop new industries with a special focus on the greater strategic utilization of information technology. It is a crucial step for Japan to regain global competitiveness and continue its economic growth into the future in the face of such structural problems as a shrinking and aging population. The establishment of policies and systems to support this development is an urgent issue for the country.

The Japan Association of New Economy (JANE) is dedicated to performing policy advocacy from a private sector perspective to contribute to addressing this issue, while also providing a platform for information sharing and networking among members.

To that end, JANE works to achieve the triple objectives of promoting innovation, entrepreneurship and globalization. As an organization with a responsibility towards the socioeconomic future of Japan, JANE, with its member companies pioneering tomorrow's technologies and services, continues to challenge the status quo and advocates a vision of the future beyond conventional thinking.

In 2019, we strive for “the third opening of Japan” which illustrates new shape of Japan, coming after the Meiji revolution(restoration) and the post-World War II reconstruction.

Three Pillars to Achieve Policy Goals

**Intelligent Hub
Concept**

**Cutting-edge
Society
Smart Nation**

**Address the
population
decline and
labor shortage
issues**

The Key Theme "The Third Opening of Japan"

Grand Design PT

Promoting Innovation PT

Immigration and
Inclusive Society PT

Venture Philanthropy PT

FinTech PT

Sharing Economy PT

Expansion of Real Estate
Market PT

Education Reform PT

SOGI Empowerment PT

JANE conducts policy advocacy reflecting the needs and views of its members.

Japan Ahead 2

- Basic policy positions of JANE (published in 2018/4)
- Proposal to generate an estimated economic impact worth more than 150 trillion yen with these three pillars

Intelligent Hub Concept

1. Flow talent, wisdom, money toward Japan
2. Reduce corporate tax rate (to around 20%)
3. Support Innovation/startups
4. Put into place environment of workstyle competitive & globally applicable
5. Nurture globally competent talent
6. Promote corporate philanthropy to return profit to society

Cutting-edge Society, Smart Nation

1. Build digital-first society
2. Promote cashless society
3. Put into shape personal/corporate/administrative data infrastructure (thorough use of Individual Number system, etc. & completion of data infrastructure)
4. Promote sharing economy
5. Make administration smart on government's own initiative & reduce administrative costs
6. Promote "xxx tech" in demonstration tests (using special zones, sandboxes, etc.)
7. Design systems/institutions matching new economy
8. Fair regulations/taxation for both domestic & overseas companies
9. Nurture talent specialized in IT/AI

Address the population decline and labor shortage issues

1. Discuss immigration policy head-on
2. Reform social security system
3. Promote use of sharing economy such as crowd delivery & ride sharing
4. Super tourism-oriented country

Grand Design PT

<Main activities>

Policy proposals for whole idea of economy which are compatible with digital transformation such as:

- Competition policy and considerable measures and for Japanese companies to compete against the U.S. and Chinese tech companies under digital economy (level playing field in taxation and regulations, the pros and cons of Japanese version of data portability etc.)
- Digitalization of administrative procedure and procedures among private entities (utilization of "My Number (individual number)", centralization of IT procurement for central/local governments)

<Policy proposal and Seminars>

May 2019 Director Yoshida testified before the Committee on Economy, Trade and Industry at the House of Representatives on the Bill to amend the Anti-Monopoly Act

Apr. 2019 Membership seminar "Cutting-edge business seminar at the National Diet: Issues concerning foreign digital platformers"

Mar. 2019 Submitted "Issues on Foreign Digital Platformers and Countermeasures" to the METI etc.

Promoting Innovation PT

<Main activities>

Policy proposals for detailed measures to join "the trillion-yen club" such as:

- Regulatory reform by growth stage (abolition of ex-ante regulation, tax and business accounting reform etc.)
- Public-private partnership to promote innovation and risk-based capital framework to facilitate funding

<Policy proposals and Seminars>

May 2019 Vice Representative Director Fujita participated in the awards ceremony for the 5th Nippon Venture Grand Prize as a member of the examining committee.

Apr. 2019 Published "JIM", the JANE Innovation Monitor which evaluates policy progress toward the JANE's past proposals

Immigration and Inclusive Society PT

<Main activities>

Policy proposals to achieve diversity and inclusion by accepting immigrants among others

<Policy proposals and Seminars>

Apr. 2019 Responded to the public consultation on the draft "Basic plan for immigration control and residency management" by the MOJ

Nov. 2018 Membership seminar "Policy discussion: identifying issues on accepting foreigners and immigration policy"

Oct. 2018 "Policy proposal for accepting more foreign workers and promoting innovation"

Venture Philanthropy PT

<Main activities>

Study, make policy proposals, and conduct other related activities in order to form philanthropy ecosystem, including those for the reform of the public-interest corporations system

<Policy proposals>

New Economy Summit (NEST)

New Economy Summit 2019

JANE hold "New Economy Summit (NEST TOKYO 2019)" on June 20, 2019. The 7th NEST had the panel sessions of front-runners in timely topics such as 5G, eSports, Ai x Medicine, and Digital First Law. More than 1,000 people attended this event.

New Economy Summit 2019 PROGRAM

LUNCH SESSION

Silicon Valley at present

– What Tokyo can learn from its business innovation –

Kenji Kushida (Research Scholar, Shorenstein Asia-Pacific Research Center, Stanford University)

Noriyuki Matsuda (Founder & CEO, SOURCENEXT CORPORATION / Director, Japan Association of New Economy)

[Exclusive lunch event to JANE members and NEST TOKYO 2019 Supporting companies] In the first half, the two panelists knowing about Silicon Valley inside and out introduced the latest trends of SV where a series of large-scale IPOs have been taking place and its sources of innovation, then discussed what is necessary for Tokyo to be an "intelligent hub" for innovation. In the second half, we had a buffet lunch: all participants including the speakers freely mingled and networked.

OPENING REMARKS

The "Third Kaikoku" is about to Change Japan

– A new Japan envisioned by the Japan Association of New Economy –

Mickey Mikitani (Founder, CEO and Chairman, Rakuten, Inc. / Representative Director, Japan Association of New Economy)

Hiroshi Mikitani, Representative Director of JANE, shared with the audience his thoughts on the issues surrounding Japan in the new Reiwa era: the most current trends of the world, where the industrial structure was undergoing a rapid transition; how Japan should have positioned itself against that backdrop and what steps it should have taken. Besides, Mikitani presented JANE's new initiative the "Japan New Economy Index", the first of its kind as an initiative led by an economic association and that highly drew great attention of the media.

SESSION 01

The Impact of 5G

– Disruptive innovation brought by the next generation telecommunication standard –

Tareq Amin (Executive Vice President and Chief Architecture Officer, Rakuten, Inc. / Chief Technology Officer, Rakuten Mobile, Inc.)

Amir Segev (Co-founder and CEO, TEXEL)

Moderator / Tsutsumu Ishikawa (Journalist)

Having Tareq Amin and Amir Segev, the frontrunners of 5G and VR, this session focused on how the advent of 5G changes business and society, by spotlighting both infrastructure and applications. They discussed key issues such as "how is 5G network architecture like?" and "what are innovative user experiences which only 5G can realize?".

SESSION 02

eSports Have Come This Far

Takahiro Yamauchi (Managing Director, CyberAgent, Inc. / CEO, CyberZ, Inc.)

Umehara (Professional gamer), Tokido (Professional gamer)

Magotto (Professional gamer), Bonchan (Professional gamer)

Hameko (Game commentator), Nanai (Game commentator)

In the first half of the session, Takahiro Yamauchi, the CEO of CyberZ, Inc. shared prospects and challenges for the future of esports, which was rapidly developing as both a sport and a business. In the latter half, the world's top-level professional esports players demonstrated on the stage. The audience experienced the excitement of esports.

SESSION 03

Business in the Reiwa Era

– Views of young business leaders –

Genki Shiota (Co-founder and CEO, Akatsuki Inc. / Executive Officer, Japan Association of New Economy)

Yuya Taketani (Representative Director and Chief Executive Officer (CEO), Gunosy Inc. / Executive Officer, Japan Association of New Economy)

Yasukane Matsumoto (Founder & CEO, raksul,inc. / Executive Officer, Japan Association of New Economy)

Moderator / Daisuke Furuta (Journalist / Senior Fellow, BuzzFeed Japan)

Japan has entered a new age; from Heisei to Reiwa. Heisei saw our lives dramatically changed by technology development. With the evolution of AI and shifting to new working styles, further changes are expected to take place shortly. How will society evolve in this new age of Reiwa? In this session, young business leaders who also serve as the Executive Officers of JANE discussed business and future outlook for the Reiwa.

SESSION 04

Medicine × AI

– Possibilities and challenges in the application of AI in medicine –

Puneet Batra (Associate Director of Machine Learning, Broad Institute of MIT and Harvard)

Yuki Shimahara Ph.D. (Chief Executive Officer, LPIXEL Inc.)

Seigo Hara (Founder and CEO, MICIN)

Moderator / Takuya Kitagawa (Group Managing Executive Officer CDO (Chief Data Officer) of Technology Division, Rakuten, Inc.)

In this session, key figures at the forefront of this field discussed AI's achievement in the past ten years, the current situation, outlook in five and ten years of AI utilization in healthcare, and further the application in well-being beyond the treatment of diseases.

SESSION 05

The Impact of Digital First

– The directions in which Japanese business and society take will change –

Takuya Hirai (Minister in charge of Information Technology Policy)

Yasufumi Kanemaru (Chairman and President, Group CEO, Future Corporation)

Moderator / Mickey Mikitani (Founder, CEO and Chairman, Rakuten, Inc. / Representative Director, Japan Association of New Economy)

"Digital First Bill" was passed in the ordinary Diet session of 2019. In this session, we invited Mr. Takuya Hirai, Minister in charge of Information Technology Policy, who had been demonstrating strong leadership toward enactment of the bill, to frankly discuss ways to design and realize the future of digitalization of the Japanese society, together with Mr. Yasufumi Kanemaru, founder and Group CEO of Future Corporation and Mr. Mikitani, the Representative Director of JANE.
